

Press Release

Amertron increases product offerings with a Strategic Alliance with Timbercon, Inc.

Melbourne, FL, October 21, 2008:

Amertron is a certified 8(a) SDB/Hispanic Business and is a long time supplier to the aerospace, defense and commercial industries. Amertron specializes in low volume, high reliability contract manufacturing. Amertron manufactures RF cables, wire harness, printed circuit board assemblies, flex cards, and mechanical assembly. This partnership will add Fiber Optic cables to Amertron's product offerings.

Timbercon, Inc., a fiber optic product and solution manufacturing company, is pleased to announce the establishment of a strategic alliance with Amertron headquartered in Melbourne, Florida. This alliance offers customers access to a more comprehensive suite of connectivity solutions by combining Amertron's copper cable and integration capabilities with Timbercon's vast array of fiber optic technology.

"Our decision to work closely with Amertron was based on our customers' need for complete solutions from a single vendor. Reputation and performance made Amertron the logical choice." said John Lee, Vice President of Sales and Marketing at Timbercon. "As part of Amertron's strategic goal to provide a complete solution to our customer's need, we look forward to adding Fiber Optic technology to our product line." said James Harhi, President of Amertron.

About Amertron. Founded in 1971, Amertron specializes in the production of high-reliability electronic products. Capabilities include the designing, manufacturing and testing of electronic sub-assemblies, chassis and cables suitable for harsh environment applications. They take pride in their recognized ability to apply production engineering techniques to improve quality, enhance performance and reduce production cost. Additional company information can be found at www.amertron.com

About Timbercon, Inc. Founded in 1997, Timbercon, Inc. is a fiber optic product and solution manufacturing company providing a vast array of connectivity solutions to the military/defense, data storage, telecommunications, industrial, broadcast and networking industries. In addition to standard fiber optic connectivity and attenuated Loopbacks, Timbercon has pioneered proprietary harsh environment products, many of which are now considered to be an industry benchmark. Additional information can be found at www.timbercon.com.
